WORK OF THE EMPLOYMENT EXCHANGE DURING OCTOBER 1949.

The Employment Exchange No. 3, Lady Curzon Road Civil Station, Bangalore, was as usual engaged in registering the unemployed and securing suitable jobs for them.

It placed 109 persons in employment, of which 11 ex-servicemen, 1 woman, 95 others and two of A. B. standard, bringing the total number of persons since the commencement of the organization to 2,105.

The total number of vacancies reported from employers during the month was 170, of which 160 from Government and 10 from private bodies.

Two hundred and four ex-servicemen and 434 from others were submitted for employment. Registration of 195 ex-servicemen and 602 others lapsed during the month.

Up to the end of October 1949, 22,439 persons were registered, and by the end of the month 661 ex-servicemen and 4,341 others only were on the Live Register.

It is hoped that the employers and employment seekers will take full advantage of this institution and render unstinted co-operation.

Press Note.

The attention of Government has been drawn to an article published in a local Kannada newspaper of 28th November 1949, stating that Government have abolished the Chemical Engineering Course in the College of Engineering, Bangalore, in a hasty and unexpected manner and that in this the Government have been actuated by improper motives.

As it is thought desirable that any misconception in this behalf should be removed from the public mind, the following facts of the case are published for general information :

The Chemical Engineering Course was started in the year 1945-46 at the College of Engineering, Bangalore, and was placed in charge of a Professor who was then appointed on probation for two years. As the course progressed it was noticed that neither proper teaching and training could be provided for with the staff nor adequate equipment secured on account of the war and its after effects. Therefore, the University Council at its meeting held on 17th June 1948, resolved that the Department of Chemical Engineering had not worked satisfactorily and could not be expected to work efficiently if the Professor who having no qualifications in the subject of Chemical Engineering, no aptitude for teaching, and no capacity to organise and manage the department, was continued and that the period of probation of the Professor be terminated immediately and the post filled up after readvertisement. Enquiries have shown that it is difficult at the present moment to get a person of professorial rank with necessary qualifications and practical experience in Chemical Engineering.

In the meanwhile, want of proper accommodation and equipment was more keenly felt in respect of students of higher classes of the Chemical Engineering Course. Therefore, arrangements had to be made in the Indian Institute of Science for the teaching and training of the final year students in the year 1948-49. This arrangement which involved an expenditure of Rs. 8,500 payable to the Indian Institute of Science was sanctioned by Government. During the current year also the authorities of the Indian Institute of Science have been persuaded with great difficulty to afford training and teaching facilities to the final year students at a cost of Rs. 11,200 and the same has been approved by Government. In so doing, the authorities of the Indian Institute of Science have stated that these facilities are continued on the distinct understanding that extension beyond 1949-50 would not be sought.

In view of the above handicaps and difficulties to which the Chemical Engineering Course was subject, the University Council reviewed the position at its meeting held on 11th and 12th June 1949 and resolved : (i) that admissions to the I and III Year Classes in Chemical Engineering be stopped this year ; and (ii) that a Committee be appointed to examine afresh the requirements of the Chemical Engineering Section of the College of Engineering with regard to equipment, accommodation and staff. The report of this Committee and of the recommendations of the University Council are being awaited.

It is evident from the foregoing that the Government have not abolished the Chemical Engineering Course. They have only taken note of the views and decisions of the University Council which is the Governing body of the University fully competent to judge and decide matters of academic nature and the part of Government has been to help the University to carry on its functions more satisfactorily. As no course would be of much value unless proper teaching and training are provided for, Government hope that it will be possible to take a final decision in the matter after the University submits its report.

Rules regulating the display of the National Flag of India.

The following rules framed by the Government of India, for the display of the National Flag of India, are published for general information and guidance :—

1. Display of the Flag on Buildings :

(*a*) Normally the Flag should be flown only on important Government buildings such as High Courts, Secretariats, Commissioners' Offices, Collectorates, Jails and Offices of the District Boards and Municipalities. It should also be flown on the residences of the Ministers (both Central and Provincial), President of the Constituent Assembly of India, Ministers of State of the Central Government, Chief Commissioners, Speakers of Assemblies (both at the Centre and in the Provinces), Presidents of Upper Chambers (where these exist), Commissioners of Divisions, Deputy Commissioners and Collectors of Districts and Ministers as well as Presidents or Speakers of Legislative Chambers of States and Unions of States.

(*b*) (i) The Governor-General and Governors have special Flags of their own and they will continue to fly those Flags on their residences.

(ii) If the Governor-General or the Prime Minister while visiting a Province stays with the Governor in the Government House, the Governor-General's Flag or the National Flag of India (till such time as the Prime Minister has his own Flag) as the case may be, should also be flown on the top of the main building or on the top of the wing where the Governor-General or Prime Minister happens to reside, or in a conspicuous part of the forecourt or the main approach.

(iii) If the Governor stays in a Circuit House within his Province and the Governor-General or the Prime Minister also stays in the same house as his guest, the same practice as at (*b*) (ii) should be followed.

(iv) If the Governor-General or the Prime Minister proceeds to a Provincial Town where the Governor is not present, the Governor-General's Flag or the National Flag of India, as the case may be, should be conspicuously displayed on a flagstaff or an improvised pole on the top of the house.

(v) If the Governor-General or the Prime Minister visits a State or a States Union the same procedure as indicated at (*b*) (ii) to (*b*) (iv) should be followed.

(*c*) Heads of Indian Missions in foreign countries and States should fly the Flag on their residences and also on their offices where the latter are separate from the former.

(*d*) In frontier areas, the Flag may be flown at special places.

(*e*) Ruling Princes and Rajpramukhs may also use the Flag on their residences, together with their own state Flags, if they so choose.

(*f*) The use of the Flag by the Army, Navy and the Air Forces will be governed by the special rules made for the purpose.

(*g*) On special occasions like the Independence Day Celebrations, National Week, January 26th and Mahatma Gandhi's Birthday, as well as on any other particular day of National Rejoicing, the use of the Flag will be unrestricted.

II. Display of the Flag on Cars

The privilege for use of the Flag on motor cars will be limited to—

(*a*) Ministers and Speakers, both Central and Provincial Ministers of State and Deputy Ministers of the Central Government, President of the Constituent Assembly of India, Presidents of Upper Chambers, where these exist, Chief Commissioners, Ministers, as well as Presidents or Speakers of Legislative Chambers of States and Unions of States.

(*b*) India's representatives in foreign countries and States.

(*c*) Ruling Princes and Rajpramukhs who may also use their own State Flags, if they so choose.

(*d*) The Governor-General and the Governors have their own special Flags. They will continue to use them. The Provincial Governors, when outside their Provinces, should fly the National Flag of India.

III. The Flag should not be flown by persons other than those mentioned above except on particular occasions, mentioned in I (*g*) of the rules.

Press Note.

Dated 8th December 1949.

The following Press Note dated 28th October 1949 of the Government of India, Ministry of Rehabilitation, New Delhi, is published for general information :—

1. Some misapprehension appears to have arisen in certain quarters about shares and securities owned by evacuees from India. Under the law, as it stands in India as well as Pakistan, shares and securities belonging to evacuees are evacuee property and cannot be sold or transferred by the evacuee without the prior consent of the Custodian. The Government of India have, however, decided not to place any restrictions on the transfer of shares of public limited liability companies and securities which are in possession of evacuees. When such shares and securities are deposited with any Bank or Safe Deposit Company, they are to be treated as evacuee property and cannot be returned to the owner without proper authority from the Custodian.

"2. Where a concern has been taken over as evacuee property by the Custodian because the majority of the shareholders have gone to Pakistan (*e.g.* The Batala Engineering Works), such concerns can, even under the Karachi agreement, be retained by Government for five years for the rehabilitation of displaced persons. In such cases, therefore, it is in the interest of the intending purchasers to consult the Custodian before buying such shares. Purchases made without the Custodian's prior consent may not be confirmed by the Custodian, and the buyer may lose his purchase money. The Custodians of Evacuee Property have been asked to notify such concerns in the official Gazette of the Province concerned for general information".

Press Note.

Dated 8th December 1949.

Government have, after careful consideration and with the previous approval of the Government of India as a special case, have increased the procurement prices of paddy by rupee one per palla.

The revised prices are :—

	Rs. Per palla.
Paddy I Sort	21
Paddy II Sort	19

These prices will be effective for the current harvest season.

In regard to the zoning of rice mills, it has been brought to the notice of Government that the practice of attaching particular villages to particular rice mills has resulted in several anomalies and has caused inconvenience to surplus holders in delivering grains. The stringency of zoning has already been relaxed to some extent by permitting the delivery of paddy by surplus holders at any mill at any particular place where there was more than one mill. Even this relaxation, it is reported, has not obviated all the inconveniences. It has to be remembered that in view of the particularly difficult time ahead, it is essential that no step can be taken which will militate against the effectiveness of procurement. But since Government are satisfied that there is some real difficulty in regard to the delivery of grain at allotted rice mills, they have now ordered that surplus holders should have the full option to deliver the paddy at any mill of their choice situated within a radius of five miles from the place where either the paddy is grown or where the holder resides, provided the holder declares in advance to which mill he proposes to deliver paddy and gets the information entered in the H. S. forms, so that there may be a proper maintenance of accounts. In case where no mill is situated within a radius of five miles as mentioned above, the paddy has to be delivered at the nearest mill or mills to be specified by the authorities. It is hoped that this modification in procedure will afford adequate relief to the holders while at the same time safeguard procurement.

It has also come to the notice of Government that quite a large number of surplus holders intend keeping back their stocks of grain in the hope that there will be a further increase in price or in the hope that there is a possibility of cash bonuses being given. Government wish to state definitely that no bonus will be paid nor will there be any increase over the prices now announced, *viz.*, paddy I sort Rs. 21 per palla; paddy II sort Rs. 19 per palla. The surplus holders are hereby requested to surrender their grains immediately to the authorities.

As the supply position of Cement in Bangalore City and Civil Sation is not encouraging, and as the little stock of cement that is now available in these two places is already covered by authorisations issued from this office, and as there is no likelihood of getting cement from the Madhukarai Factory due to paucity of wagons and other transport difficulties till about the end of this month, the public are hereby informed that all applications for Cement even for small quantities will not be entertained till the 25th of this month. Even those authorisations already issued and whose validity ceased to has exist will not be revalidated till such time as the supply position of cement improves. The public are hereby requested to co-operate with the Department in this behalf, and the inconvenience caused to them is very much regretted.

Dated 9th December 1949.

A few press reports have appeared regarding the death of a woman in police custody in Hosadurga Taluk. Various allegations regarding the cause of her death have also been made. The matter was first brought to the notice of Government on the 30th November 1949 and they have immediately directed a thorough and impartial enquiry into the question. The Deputy Commissioner had also camped at Hosadurga in the first week of this month and has made enquires in this matter. The Sub-Division Officer and *Ex-officio* First Class Magistrate, Davangere, is now camping at Hosadurga and holding a detailed enquiry as contemplated under Section 176 of the Code of Criminal Procedure. It will thus be seen that all steps are being taken to ascertain the exact cause of her death, and the Government are determined to take suitable action against the culprits, if any offence were to be proved.

When such an enquiry is being conducted, it would not be desirable to make allegations in the press, as it would affect the course of the enquiry.

Several enquiries have been received from the public seeking clarification of the dates from which the Timber Movement (Control) Order, issued with Government Notification No. A. F. 5458—Ft. 49-47-5, dated the 2nd June 1948 and the detailed revised Transit Rules, issued with Government Notification Nos. A.F. 2180—Ft. 45-49-2, and A.F. 2181—Ft. 45-49-2, dated the 19th September 1949, would come into operation. These different orders prescribe different courses of action in matters like obtaining of permits for transit of forest produce and for establishing saw pits, mills, or other sawing contrivances, and according to Section 77 of the Mysore Forest Act, the two Notifications dated 19th September 1949 have obtained the force of law from the date of their publication in the *Mysore Gazette*. As however it has not been found possible to complete certain preliminaries before the Revised Transit Rules are brought into operation, it is hereby notified for general information that the Emergency Order, *viz.*, the Timber Movement (Control) Order of 1948 will be in operation till the end of January 1950 and that the Revised Transit Rules will be brought into effect from 1st February 1950.

The second day's Sessions of the State Excise Officers Conference was held at Thippagondanahalli Inspection Lodge at 3 P.M., on the 8th December 1949, under the Chairmanship of Hon'ble the Minister for Excise and Public Health. All the Excise Officers the Revenue Secretary to Government, the Deputy Commissioners of Bangalore Urban and Rural Districts, the Assistant Secretary (Special Revenue) and Excise Inspectors were present.

The Proceedings began with the Excise Commissioner's welcome address. In his address he thanked the Minister for having consented to preside over the Conference. In his remarks, he expressed the need for a Conference of this kind where all the Officers of the Excise Department, both Gazetted and Non-gazetted, gather and have an opportunity to meet the Minister and take part in the discussion of various subjects that are engaging the attention in the light of their experience.

The Minister in his opening remarks expressed that he was greatly pleased to be able to be present on the occasion and to preside over the deliberations of the Conference. He said he wanted to meet all categories of the Excise Officers to enable him to have a free and frank discussion on all the problems that were engaging the attention of Government and also any other matters which, in the opinion of the Excise Officers, deserve to be brought to the notice of Government. He welcomed all the Officers as also the Inspectors and invited them for full and free discussion on the various subjects before the Conference and to place their views on the question of success or otherwise on the Prohibition Scheme and also whether any further measures could be adopted in the light of discussions to make the Scheme more of a success. He also invited remarks on the question as to whether Prohibition work is to be entrusted to the Police or allow the Department itself to work it, and any other subjects upon which the Officers felt they could make useful contributions.

A full and free discussion on the various subjects followed. Altogether, eight Resolutions were adopted, the main recommendations being, that it was very necessary that the Departmental scales of pay should be re-organised first on the lines on which the scales of pay in the Revenue and Police Departments have been done with a view to enable the Department to recruit efficient men. Pessimism which has resulted due to the long stagnation should be removed as has been done in every other Department. All the Officers spoke freely on the subjects. Regarding Prohibition work they were of the opinion that a Committee consisting of people with social record of service be constituted to enquire into the conditions that have followed in the wake of the introduction of Prohibition and on the question of enforcement of Prohibition Act. The Conference felt that provided certain facilities were given to the Department, they could themselves certainly take up, at comparatively less cost, the work of enforcement of Prohibition and also the work of rehabilitation of addicts, side by side. The suggestion was that with a Constabulary of men along with a van and a trained Officer working directly under the District Excise Officer along with the existing staff, the Prohibition work could be satisfactorily handled.

It was also decided that while making over the Special Excises to the Central Government, care should be taken to see that all Officers were provided with posts, the scales of pay being fixed with regard to the pay drawn by the Central Officers and not being limited to the existing scales of pay which had been fixed decades ago. There was a frank discussion of the subject and it was finally resolved that the term "not less advantageous" should be clarified to mean that the posts to which the Excise Officers of the State were appointed in the Central Excise Corresponded to similar posts with the same scales of pay.

Increased staff for the Excise Intelligent Bureau in Mysore meeting of Excise Officers with those on the borders, suitable Rewards for detection of cases under Special Excises, and appointment of Typists in each of the District Excise Offices formed the subject of the other resolutions adopted at the Conference.

In pursuance of the Notification dated 7th September 194 issued by the Director of Animal Husbandry Department, th rates of fishing license fees in the three areas of Fisher Divisions, Krishnarajasagar Division (Srirangapatna, T.-Narsipur and Krishnaraja Nagar Taluks), Shimoga Divisio (Shimoga, Channagiri and Honnali Taluks) and Kola Division (Malur, Mulbagal, Kolar and Bowringpet Taluks were revised and enhanced with effect from 1st August 194 as detailed below:—

No.	Fishing appliances	Rates of license fee existed prior to revision				Revised rates of license fee with effect from 1st August 1949.			
		Rs.	a.	p.		Rs.	a.	p.	
1	For the use of not more than two country rods and line.	3	0	0	Per annum	5	0	0	Per annum
2	For the use of one net or one long line or one kooli.	5	0	0	,,	10	0	0	,,
3	For the use of more than one net or any other appliances.	10	0	0	,,	20	0	0	,,
4	For Angling with rod, and line (with reels, flies, spoons for live bait).	5	0	0	Per month	5	0	0	Per month

A large number of fishermen have since represented to Government that the revised rates work as a hardship on them and have prayed for a reduction of the license fees. Government have considered the representation and are of the opinion that the prayer of the fishermen is reasonable, in view of their general condition of poverty, and have ordered that the revised rates be cancelled and the old rates existing prior to 1st August 1949 be restored.

Import of Foreign Silk into India.

Representations are being received from a section of the public that these imports are not in the interests of the Sericultural Industry of the State. Counter representations have also been received that without import of foreign silk, the Silk Weaving Industry would die, and that the consumer would be put to great difficulty.

After a close examination of facts of the various interests of the Industry, Government consider it necessary in the very large interests of the Sericultural Industry of the State and as also the Silk Weaving Industry and consumer, to import sufficient quantities of foreign silk at economic prices. It may may be added for the information of the public that the quantity of silk required by India annually has been estimated by the Tariff Board at about 8 millon pounds including fabrics, whereas Indian production is only 2·2 million pounds. Therefore, the deficit has to be made up by foreign imports only, before India is able to be self-sufficient in silk production. In view of these considerations it is very essential that foreign silk is imported in sufficient quantities at reasonable prices. The imports are limited in scope for want of Dollars for imports from Japan, and inadequate sterling for imports from Italy.

Press Note.

Dated 12th December 1949.

Certain alarming reports have appeared in the Press, saying that the Police had to open-fire in Mandya on 11th December 1949 to disperse the workers of the Mandya Sugar Factory who have been on strike. In order to remove misconceptions in the matter, Government wish definitely and categorically to state that there was no Police firing at all. The facts of the case are as follows :—

Contrary to the provision of an order under Section 39 of the Mysore Police Act, on the morning of the 11th December, three groups of workers intent on converging on the Labour Association of the Sugar Factory began to move from three different directions in procession, *viz.*, one from the Guthalu Colony, the second from the L. and M type quarters, and the third from the Mysugar High School side. These were headed by women and other non-workers. Immediately local and the Provincial Armed Reserve Police were posted at important points to prevent these groups from advancing further and creating trouble. When stopped by the Police and advised to disperse they refused to do so. By 9-30 A.M. the crowds got unruly and began to pelt stones on the police. The District Superintendent of Police and the *Ex-Officio* First Class Magistrate were present and advised the crowds at various times to disperse peacefully. There was no sign of dispersing and the crowds began to move towards the Labour Association first and then all the three joined and rushed towards the time office gate with a view to enter the factory. The whole mob became more unruly and resorted to violence again by breaking the branches from trees nearby and pelting stones at the staff on duty. In spite of warnings through a megaphone by the *Ex-officio* First Class Magistrate to disperse, the mob rushed and the Magistrate ordered the use of tear gas; as this had no effect, he had to order the use of tear gas again and a mild lathi charge. Thereupon the mob turned round and proceeded towards the Labour Association. The Magistrate had to order another mild lathi charge and the use of tear gas. In all, tear gas had to be used on three occasions and a mild lathi charge twice. The mob was finally pushed back and dispersed and police were posted all round. A cordon was put around the Guthalu Colony and the whole situation was brought under control by about 12 NOON. Reinforcements of Provincial Armed Reserve Police ha sent and the situation is perfectly under control since The factory is continuing to work as usual.

STONEWARE PIPES SPECIFICATIONS.

1. Stoneware pipes shall be of the best quality stoneware, salt glazed thoroughly burnt throughout the whole thickness of a close and even texture, free from air blows, fire blisters, cracks and other imperfections and the surfaces external and internal, shall be smooth and perfectly glazed.
2. A piece of stone-ware pipe about 2" square from any part of the pipe, shall not absorb, after 48 hours immersion in water, more than 4 per cent of its own dry weight of water.
3. The stoneware pipe shall be capable of resisting a bursting pressure of 30/50 lbs. without showing signs of leakage
4. The breaking weight of the stoneware pipe shall not be less than 1,700 lbs. applied by means of a lever or otherwise to the centre of a flat board of hard wood, of the same length as the pipe, laid along the top of the pipe throughout its length, exclusive of the socket. The pipe when subjected to this test should be supported on a similar flat board underneath, the socket overhanging and a layer of felt laid between the pipe and the boards.
5. The thickness of stoneware pipes shall not be less than 1/12th of the internal dia. and shall be uniform throughout the body of the pipe. The socket shall be made in one piece with the pipe. The cross sections of the pipe at straight angles to the axis shall be a circle and the ends square to the axis. The pipes used for straight drains shall be straight longitudinally and those used for curved drains shall be segments of a circle in plan, and when laid and jointed in position shall form a drain free from any obstruction.
6. The depth of the socket should not be less than 1½" for all pipes under 9" diameter 2" for 9" and 12" pipes and 2½" for all sizes over 12". The internal diameter of the socket should be large enough to allow a joint of ½" all round the outside of the entering pipe, to facilitate proper caulking.
7. To test the freedom of the pipe material from lime, pulverise a small piece of the pipe, weigh and boil in H. Cl. subsequently wash on a filter and dry, noting any loss in weight. If there is no loss in weight, then the material is free from lime.
8. Stock sizes should only be used, with 4" minimum and 24" maximum diameters.
9. All pipes should be 2' long when laid in place.
